

# FLOW STEM / MECHANICAL CLOSURE

## Model M

The Flow Stem enables limiting the opening stroke of a control valve or for safety-ensured mechanical closure.

### Typical Applications

- Anticipating Valves Models 735-M and 735-55-M (For limiting the relief flow)
- Burst Control Valve Model 790-M (For burst flow setting)

### Technical Data

**Standard materials:**

**Stem, Housing & Nut:** Brass

**Seals:** NBR

**Optional materials:**

**Metal Parts:** Stainless Steel, Nickel Aluminum Bronze

**Seals:** EPDM, FPM (Viton®)
