

PRESSURE GAUGES

This robust, liquid filled Pressure Gauge is used for heavy duty service where vibration or pulsation of the pressure might cause excessive wear of a dry gauge, or where corrosive ambient conditions or fluid prevail.

Technical Data

Dial size: 2½"

Connection: ¼" NPT, back or bottom

Scales: 140, 250, 400 and 600 psi

Accuracy: ± 1.6% of full scale dial

Maximum temperature: Water up to 140°F

Standard materials:

Case: Stainless Steel 304

Window: Extruded acrylic sheet

Seal: Neoprene

Dampening fluid: Glycerin

Socket: Brass

Bourdon tube: Bronze

Dial & pointer: Aluminum
